

**GREENTECH  
GLOBAL**

Indoor Air Quality Engineering & Integrated Systems  
Real-Time Environmental Monitoring  
Factory-Direct Sourcing for Critical Building Systems

## WHO WE ARE

Greentech is a global indoor environmental engineering firm dedicated to healthier indoor environments. Since 2010, we've completed 9,000+ projects across Asia and North America, supporting 40% of Fortune 100 firms and 30+ international schools. Our multidisciplinary team delivers end-to-end solutions through scientific analysis, advanced technology, and proven strategies. We serve clients in real estate, healthcare, education, government, and high-end residential sectors, enhancing health, energy efficiency, and occupant satisfaction.
